Making Workers' Comp Work For Everyone

Strategic Comp is the smarter way to do workers' comp – giving businesses more control over their costs, risks, and outcomes than ever before. We make workers' comp work for everyone.

Our Paid Loss Aggregate Deductible program welcomes accounts with excellent loss experience as well as those with poor loss history and high e-mods.

Let's make this work for everyone®

Change the model – First, switch your clients to a unique aggregate deductible program that helps them achieve far better outcomes and lets them pocket the extra savings that result. Our deductible program caps their risk and does not require stacked security.

Cut the risks – Next, our loss control experts will identify clear, practical ways that your clients can reduce their workplace incidents and provide hands-on help with implementing those changes.

Control the claims – Finally, your clients will get highly engaged, local field adjusters with low case loads. Our field adjusters average 60 open claims.
