

# MAKING WORKERS' COMP WORK FOR EVERYONE

Let's make this work for everyone™

Strategic Comp is the smarter way to do workers' comp – giving businesses more control over their costs, risks, and outcomes than ever before. We make workers' comp work for everyone.

Our Paid Loss Retro has lower maximums than traditional retros. We welcome accounts with excellent loss experience as well as those with poor loss history and high e-mods.

## Here's how we make it work for everyone

**Change the model** – First, switch your clients to a Paid Loss Retro program that helps them achieve far better outcomes and lets them pocket the extra savings that result. Our retro program caps their risk and does not require stacked security.

**Cut the risks** – Next, our loss control experts will identify clear, practical ways that your clients can reduce their workplace incidents and provide hands-on help with implementing those changes.

**Control the claims** – Finally, your clients will get highly engaged, local field adjusters with low case loads. Our field adjusters average 60 open claims.

### Nationwide Service Capabilities

- States denote field-based service teams
- States denote service capabilities
- States denote monopolistic states

Let's make this work for everyone™
